

SeeFront GmbH

Company Presentation

About SeeFront (1/2)

SeeFront is founded in Hamburg

as a technology company specializing in glasses-free 3D displays

2006-2010 R&D activities

Member of MiroSurge Consortium to provide a glasses-free 3D display for a medical application

Presentations at conferences and trade fairs in the U.S. and Europe

2011-2013 Development of customer-specific solutions and licensing

Sony brings a "3D Panel" for VAIO laptops to the market and wins CEATEC Japan Innovation Award 2011

Daimler showcases research car Mercedes F125! with a SeeFront 3D instrument cluster at IAA 2011

SeeFront develops 3D monitor for slot machine maker IGT (formerly GTECH/SPIELO)

2014- Serial production of 3D monitors

SeeFront supplies 3D monitors to slot machine maker IGT (manufactured at 3rd party company in Asia)

Development of new 3D monitor products

Ongoing R&D activities, i.a. in government-funded cooperation projects focusing on the medical field (3DInMed, HaptiVisT)

About SeeFront (2/2)

Awards & Honors:

"Selected Landmark" in the Land of Ideas 2012

Innovation Award IT (Entertainment/3D) 2012

German Innovation Award 2013

ZIM Project of the Year 2016

Multiple awards for products incorporating SeeFront 3D® technology

Management:

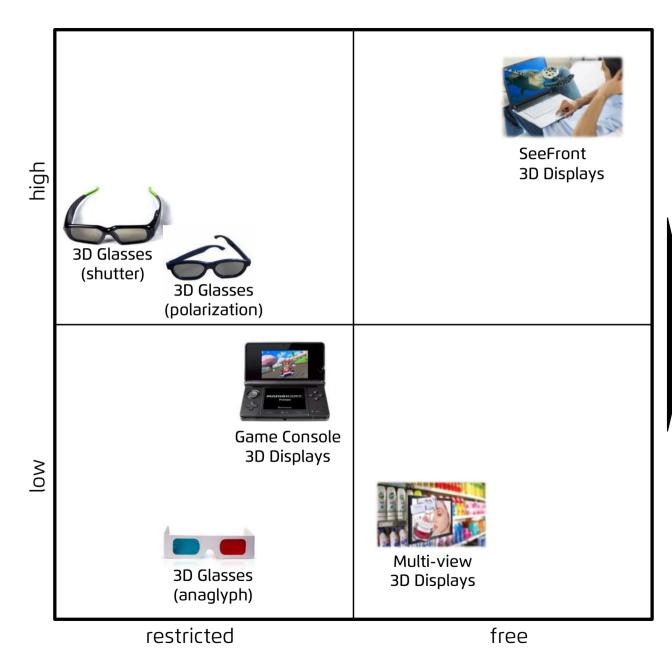

Christoph Grossmann, Founder & CEO Sabine Neumann, CFO

Patents: 15 patents in 5 patent families

6 new patent applications filed in 2018/19

SeeFront 3D Displays

Vision and Movement

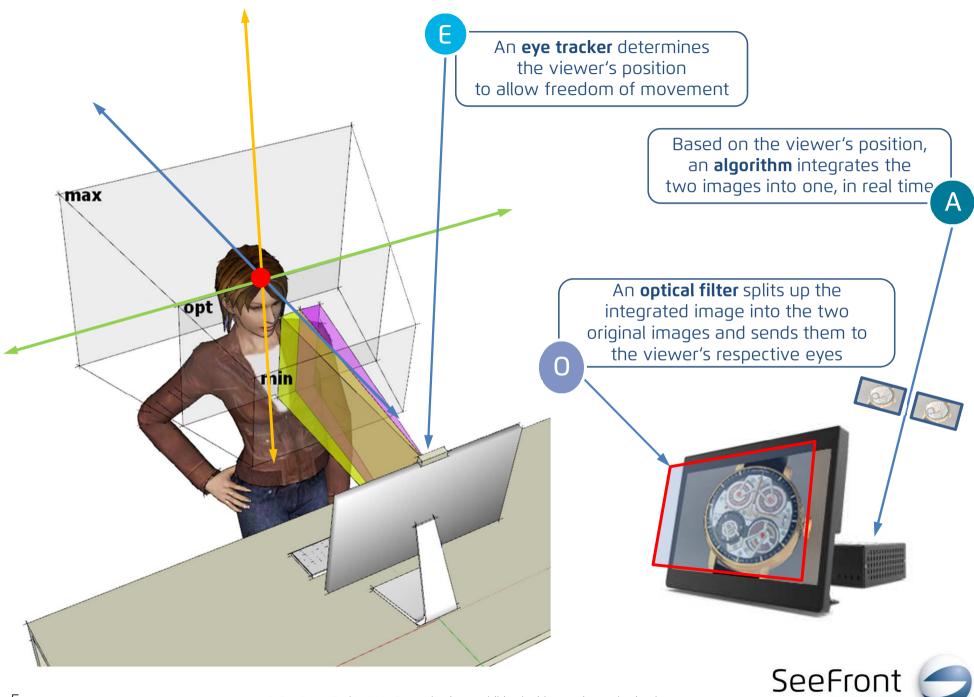

- No 3D glasses
- Free movement
- No "sweet spot"

Image Quality

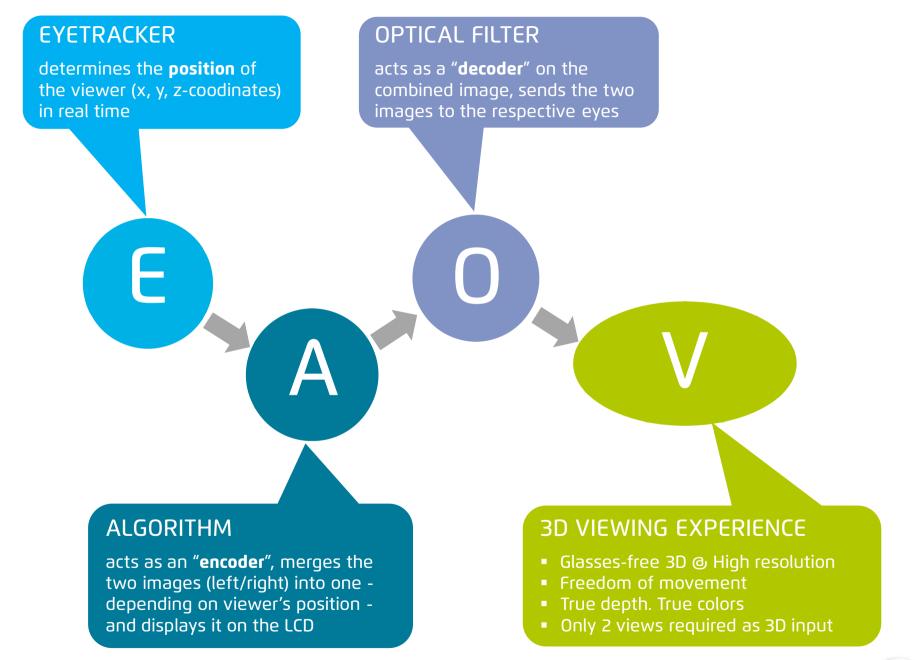

- True 3D depth
- High resolution
- True colors/full brightness

SeeFront's Approach to Glasses-free 3D

3 Components Work together for the Best 3D Viewing Experience

USPs of SeeFront Glasses-free 3D

Highest Image Quality

with 4K display panels (even better with 8K and beyond)

Flexibility

to build 3D monitors of almost any screen size and resolution

True 3D Depth

SeeFront 3D provides accurate depth impression

Versatility

works for almost any **professional 3D application** (industrial, medical, design.....)

Freedom of Movement

optimized for user's position allowing free movement in all directions

SeeFront 3D Products and Applications (1/2)

Sony 3D Panel

 15.5" and 13.3" for Sony Vaio SE-Series Notebooks

 Product launched at IFA Consumer Electronics Show 2011

 True 3D™ product line launched at Global Gaming Expo 2013, first slot machines installed in 2014

True 4D™ product line introduced at Global Gaming Expo 2016, production started in 2017

 SeeFront supplies 3D monitors (23" and 32") to IGT

Automotive

- 3D Cockpit Cluster Instrument in Mercedes-Benz F 125! Research Car, exhibited at IAA 2011
- Jaguar Land Rover 3D Cockpit Cluster, shown at JLR media event 2014
- BMW test-drives SeeFront 3D dashboard for UI/UX study in 2015

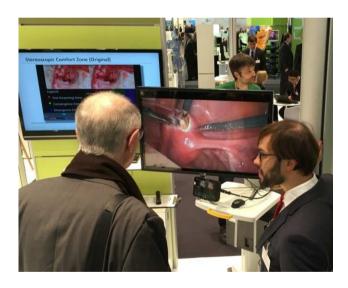

SeeFront 3D Products and Applications (2/2)

Medical

32" SeeFront 3D monitor
3DInMed funded project (2015-2017)
Joint exhibit at Fraunhofer booth

Shown at Medica 2016

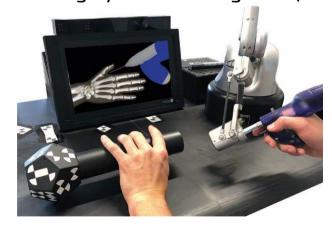

ARRISCOPE with SeeFront 3D monitor

Shown at Medica 2017

Development and evaluation of a training system for surgeons (2016-2019)
